

5th Annual Action Research Colloquium 2015 – *Practising Action Research*

The PhD Pre-Colloquium Workshop:

18th June 2015.

Overview

The Action Research Colloquium seeks to develop interest in and support for action research. This PhD pre-colloquium workshop is intended to provide a forum for students who are working towards their doctoral degrees to meet and engage in conversations with fellow students and eminent international scholars about methodological aspects of their work.

What to expect

The workshop will be organized around participating students' submissions on methodological aspects of their work in small groups.

There will **be no** formal presentations and participants will exchange feedback in a small group forum. Particular emphasis will be given to relational aspects, quality, cycles, and outcomes. Discussions will be guided by the convenors.

How to Prepare

Participants should submit a paper of up to 2,000 words based on where they are in their work. Emphasis must be given to methodological dimensions of the work. The paper should also include:

1. Contact Details, including name, university affiliation, and email address
2. A sentence describing your stage in the doctoral programme (e.g. 2nd year)
3. A paragraph on how you would benefit from this workshop

Why these details?

The convenors will plan the facilitated group discussion based on the applications.
